PROFESSIONAL SUMMARY

Results-driven Project Coordinator and Web Developer with 2+ years of experience at Indegene, Bangalore. Proven track record of exceeding SLA targets within 4 months, earning recognition from the Operations Head within the first year. Skilled in cross-functional team coordination, Agile/Scrum delivery, and stakeholder management — adept at translating business requirements into efficient project workflows and high-quality digital deliverables.

WORK EXPERIENCE

Project Coordinator / Web Developer | Indegene, Bangalore

Jul 2023 – Present

Project Management & Coordination

- Supervised daily operations across cross-functional teams, providing regular executive-level updates to senior management and ensuring on-time, within-scope project delivery.
- Managed end-to-end project data in Smartsheet and Wrike — task assignment, resource allocation, milestone tracking — reducing delivery risk through proactive identification of bottlenecks.
- Maintained direct client communication on key milestones; compiled and shared daily progress reports with the Delivery Manager, driving transparency and stakeholder satisfaction.
- Performed routine data audits to verify project accuracy, resolve discrepancies promptly, and generate actionable insights for continuous improvement.
- Led project planning activities including resource management, cost analysis, and risk assessment; utilized Veeva Vault, ServiceNow, Jira, and Kanban dashboards for full project lifecycle visibility.
- Proactively identified unassigned projects and coordinated with account managers for swift action; mentored junior team members to strengthen overall team capability.

Web Development

- Developed and maintained responsive front-end features using Wordpress, Drupal, HTML5, CSS3, JavaScript, React, and Vue.js across multiple web applications.
- Involved in integration of user-facing elements developed by front-end developers and build efficient, testable and reusable PHP Modules and solved complex performance problem and architectural challenges Integration of data storage solution.
- Conducted thorough testing and debugging using Jest, Mocha, Postman, and Browser DevTools to ensure optimal functionality and cross-browser compatibility.
- Applied coding best practices (Webpack, Babel, NPM) and API integration patterns to optimize website performance and maintainability.

 **Key Achievement:** Exceeded SLA targets within 4 months of joining and received formal recognition from the Operations Head within the first year — ranking among the top performers in the team.
